

Good Morning Preschool Families!

It was SO great seeing all of those smiling faces during our Zoom call on Friday, it truly made my day. The sunshine this weekend was a bit of salve against the sadness we were all feeling about school needing to remain closed for the remainder of the year. While we know that it was absolutely the right decision, we shed a lot of tears at our house when the announcement was made.

This is such an incredibly special time of year at preschool, especially for our four/five year olds. One thing we like to do is an alphabet countdown to the end of the year that involves a lot of special dress up and extra fun days. Because of this, you will find that the resources being emailed are smaller, and some things pretty similar. We did not do all of these, rather I am sending you a few of my resources for those that need to keep little minds occupied for 30 minutes or so :) I will also be posting some different activities or challenges for everyone to do over on Marco Polo over the next couple of weeks (ex - one day we hold a Kindness Day and decide as a group how we'd like to show Kindness in our community).

This week our letter is Xx. I will get a video uploaded with formation, phonetics, and sign language to Instagram and YouTube. We will have Munchy Mouth on Marco Thursday and Maysen (AM) and Amelia (PM) are our Star Students on Friday! I will email out a Zoom invite later today or tomorrow for that. Here is what you will find in this weeks resources:

- Bugs Spinner Game - Instructions are included but please let me know if you have questions!
- Flower Roll and Color
- Kindness Sort (I will explain this more on Marco Polo - this will go along with our Kindness Challenge)
- Look & Find Pictures
- Spring Beginning Sound Dot or Color
- X Letter Page

As always, continue working on writing those names (first and last) as well as writing in general (even if it's just each letter of the alphabet and/or numbers). Keep reviewing those letter sounds. Play with play dough, kinetic sand, shaving cream. String beads onto a pipe cleaner to help with fine motor - as an added challenge you could write numbers on pieces of paper, have them draw a number, and put that many beads on their string. And lastly, get outside and play!

Have a wonderful week, I'll see you on Marco Polo! - Ms. Tiffany
